COMPETENCIES and SKILLS

Excellent command in conducting statistical analysis, monitoring variances, identifying financial trends, and generating reports

- Strong background in statistical terminology and tests that allow for trends to be identified. From these trends, items that are both good and bad are identified. In knowing this information, the best action plan can be generated to create the best profits.

EXPERIENCE

UHEALTH – THE UNIVERSITY OF MIAMI HEALTH SYSTEM

Miami, Florida

Financial Analyst

January 2017 to Present

Dual Reporting to the Vice Chairman for Administration and the Director of Finance for the Department of CHDS. Oversaw the financial performance of more than 50 different clinical accounts where identifying trends and meeting with the departmental managers for review the financial performance of their respective departments was the general scope of work.

- Oversee the financials for approximately 50 CHDS accounts. Identify trends based on historical analysis, recommends corrective actions to overcome any negative financial trends. Assist the Director in monitoring patient volumes, expenses, and revenue forecasts
- Monitoring the financials, staffing requirements, and physician assignment and scheduling for all of the UHealth/Jackson Urgent Care Centers
- Lead the acquisition and opening of 18 Walgreen's retail clinics
- Manage compliance with quality indicators as they related to UHealth's Medicaid HMO patient population (HEDIS reporting)
- Launched the deployment of medical scribes to physicians throughout the entire health system. This initiative has generated significant revenues for the institution.

AVISON YOUNG

Coral Gables, Florida

Investment Analyst Intern

February 2016 to June 2016

Directly reported to the Senior Vice President of industrial, land, and multi-family properties. It is here where research was conducted on large-scale properties.

- Conducted research and marketing for the investment sales team that traded approximately 7% of all "big land" (250acres+) in the entire state of Florida over one year
- Performed property valuations totaling over \$60 million on commercial and industrial portfolios under the guidance of the senior financial officer
- Conducted data analyses of alternative property classes to find business opportunities in a crowded market
- Set up database of "non-public information" on properties throughout the entire state using advanced technological software applications.

UP WEE GROW, INC.

Huntington, New York

Medical Chart Reviewer

June 2014 to August 2015

Reported to the Director of New York City Operations for this early intervention company that provides a wide range of counseling services to children aged 0-5. Oversaw the implementation of a computerized record management system and conducted analysis to

help determine the best scope of treatment.

- Implemented and maintained a computerized record management system to record and process data
- Performed medical chart review for the Quality Assurance Committee
- Ran reports analyzing children's eligibility and treatment outcomes

NYU HOSPITAL FOR JOINT DISEASE.

Research Assistant

**New York, New York
May 2013 to August 2015**

Reported to the Chief of Sports Medicine at NYU Langone Medical Center. Worked in a think tank, trying to develop new research studies based on the patient injuries being seen in the clinic.

- Conducted an in-depth analysis on the effectiveness of different ACL repair techniques in patients with a BMI greater than 30
- Tracked patient pain levels from pre operation until full clearance was given by the operation physician
