I'm a cryptocurrency veteran that has built several successful technology companies. I founded my first company at the age of 20 and achieved worldwide success in the crypto space. Blockchain is a field that I am incredibly passionate about and I believe it has the potential to revolutionize various sectors.

WORK EXPERIENCE

Founder New Mine

08/2016 – Present

A cryptocurrency mining company that also holds a diversified portfolio in various coins and ICOs

Achievements/Tasks

- Took the company from 0 to \$1.7 million in sales in its first year
- Sold our machines to clients across Europe, North America and Africa
- Currently running cryptocurrency mining operations in Washington, North Carolina and within Canada
- Regularly invited to talk about this field at cryptoinvestor shows within the UK and abroad (see: <https://youtu.be/wxwjNPm3ymc>)
- Well connected within the space

Contact: www.newminerigs.com
