Dear HR,

My name is Ngo Minh Hien. This letter is to express my interest in discussing the Senior Android Developer position of your company. The opportunity presented in this listing is very appealing, and I believe that my strong technical experience and education will make me a very competitive candidate for this position.

The key strengths that I possess for success in this position include, but are not limited to, the following:
- I have successfully designed, developed, and supported live use applications
- I am a self-starter.
- Eager to learn new things.
- Strive for continued excellence.

With a BS degree in Computer Science of International University, a Mastermind Series in Java certificate of NIIT; and I have a handful of most updated techniques and technologies relating to Android application development. I also have experiences in learning and excelling at new technologies as needed.

I would like to seek new opportunities because I think working with your company will give me the chance to further hone my skills as an Android Developer. I have enclosed a copy of my resume for your reference.

I would appreciate the opportunity to discuss my experience and education with you. Thank you for your time and consideration.

Thanks in advance.
